**Subject:** Upper Animas Site - LEAF methods

Robin and Linda,

I've spoken with Paula Schmittiel, and the Upper Animas Site in SW Colorado may be a good candidate site for piloting the LEAF leaching method in the near future. Please let Paula and I know as your plans formulate and perhaps the Upper Animas Site will be at a favorable stage when everything comes together. Feel free to contact Paula or me with any questions.

Thank you,

Andrew
